

PATHS TO PERCEPTION

CULTURAL-ARTISTIC GUIDANCE WORKSHOPS

Receive **personalised recommendations** of artistic and cultural works based on your interests, concerns or questions.

Suggestions include songs, novels, films, philosophy lectures, stand-up comedy, exhibitions, photography, plays, video games, comics, and ballets.

Having explored and discussed selected works, **create your own artistic responses**, guided by our artists.

Discursive Workshops: submit your topics of interest in advance and receive personalised artistic recommendations. Common threads from your group's topics are distilled into a theme, which is then the basis of a programme of short films, stories, songs and paintings. The 2-hour session includes time for experiencing and discussing these works.

Creative Workshops: in a 4-hour session, engage with and discuss selected works on a given theme and then create your own artistic responses, before engaging in joint reflection.
